Metropolitan Area Reports for Cement, Concrete & Stone

Metropolitan Area Markets for Cement, Concrete, & Stone may be ordered by region, state, or individual metropolitan area. The United States is divided into five regions. Regional reports include data for all states and metropolitan areas within the region. Reports are available for any combination of five building materials: portland cement, masonry cement, aggregate, ready mix concrete, and other concrete products. Order only the materials that interest you. **All reports include data on population and construction activity for the geographic areas ordered.**

The cost of any order consists of three parts: 1) the report preparation fee, 2) the base cost of each geographic area ordered, and 3) the cost of each building material ordered.

By Region (including data for region, states and metro areas)

	Base Cost	Portland Cement	Masonry Cement	Aggregate	Ready Mix Concrete	Other Concrete	Cost Per Item
